

City of Greenfield Snowplow Guidelines. The goal of the Public Works Department is to clear snow and ice from City roads as soon as possible. Delays may occur in the event of equipment breakdown or extreme weather conditions. The safety of the public and City employees is our top priority. During the course of the winter excess plowed snow will be stored in stock piles around the City. Please keep children from playing on these piles. Also, please do not crowd the plow because snow removal equipment may back up frequently. Please park vehicles off the street, right-of-ways and cul-de-sacs. It is unlawful for residents to plow, push or blow snow across and onto City roads.

We do our best to clear the city streets in the shortest amount of time by following these snow removal guidelines set forth in our City policy: Snow accumulations less than 2 inches of fresh fallen snow will be salted and/or sanded as necessary; Paved streets will be plowed clear of snow when fresh snow accumulations are greater than 2 inches; all City streets and roads will be plowed clear of snow when fresh snow accumulations are greater than 3 inches. Snow Removal Priorities: main collector streets, side streets, cul-de-sacs, parking lots and landings. Widening or winging roads may continue for several days.

During the course of the snow removal season, damage to sod and mailboxes may occur and repairs are addressed in city policy. If residents mark the edge of their lawn, do so with **fiberglass poles, not metal posts**. Please contact City Hall for information on the policy for repair responsibility for sod and mailbox damage. Let's all stay safe this winter!
